CONSULTING SERVICES

HAZARDS IDENTIFICATION RISK ASSESSMENTS AND CONTROL (HIRAC)

Every Safety Management System (SMS) must ensure maximum safety levels. To do this, it is crucial to identify hazards and to evaluate and control risks. 1 Look Safety assists with the following:

- Contextualising risk assessment and its significance in effective Safety Management;
- Identifying hazards and threats;
- Analysing and calculating risk using risk matrix;
- Developing robust control and mitigation strategies to increase safety levels; and
- delivering a realistic picture of organisational risk, ensuring effective management decisions.

SHEQ PLAN DEVELOPMENT AND FILES

At 1 Look Safety, we assist with the development of the SHEQ Plan and SHE Files and updates, including Contractor specifications.

AUDITS AND SURVEYS

1 Look Safety upholds auditing principles and all audits are intended to be effective and reliable tools in supporting our clients' management policies and controls, providing information an organization can use to improve its performance. The objective of an audit is continual improvement and 1 Look Safety values this.

We will assist you with the following:

- Legal compliance audits;
- Management System audits;
- Customer Satisfaction audits;
- Operational audits;
- Investigative audits;
- Supplier Audits;
- Safety Files;
- Maintenance of safety files.
